Hi,
I hit the "email" link on KALW's website and my mail was returned as undeliverable when I used it.

It's a strange link (%20whelges@muse.sfusd.k12.ca.us) -- is it correct?

This is what I was sending in (regarding the Tavis Smiley show), if you would see that it goes to the appropriate place:

I discovered this radio program by accident (searching the dial as I was driving around and not liking the topic that day on Talk of the Nation) and am becoming a regular listener. I like hearing from guests who aren't the ones who show up on so many other entertainment and news programs, I appreciate the fresh perspectives, I love the positive energy and spirit of Tavis with his interactions with guests, and most important I learn a lot. I often find myself smiling and just feeling uplifted when the program ends. It's an excellent program -- thanks for carrying it. Susan Chamberlain

I did not call in a pledge,
but I sent in \$30 during
the last pledge drive, and
I would like to send
another \$30 now.

I like to listen to
Morning Edition on KALW
because of the BBC & Jim
Hightower. My favorite
program is "Says You"
at 8:30 p.m. on Mondays.

I also enjoy "My Word"
and "My Music" on
Friday evening.

Thanks!

Subject: Thanks for your show on immigration !!

Dear Marty,

Thanks for your KALW radio show "Work with Marty Nemko."

Thanks especially for this morning's show on immigration. I am ambivalent on immigration, but really appreciate you putting the issue out there. In fact, i was more pleasantly struck by the very fact that such a taboo topic was being discussed than i was by what was being said (don't worry, i was paying attention to that, too).

There is talk in the u.s. of "public debate." Where does this debate take place? I know of no such debate. Nothing is debated by the people, except in private. What passes for debate is snippets of info from high up, coming down in the form of articles and commentaries by "experts," and pronouncements by politicians. There is no debate. The only attempt at a Town Hall was in the Midwest -- Madeline Albright came to town to tell Americans (via TV) what reality is. The plebes were not allowed to discuss the matter among themselves in public, but were only allowed to ask questions of those in power.

You, at least, have been courageous enough to air the issue on your show, and i thank you.

Hi Jonathan,

I love your show, I only wish it was longer. The shows always make me think of music and sound in a different way. Because of the Voyager disc I've often wondered if the first ET message will be. Hi, please send more Chuck Berry, or Glenn Gould.

Thanks, and I'll be listening,

Subject: Thank you for a great radio show

Hi Marty -

My name is Jim and I wanted to thank you for keeping me inspired and keeping my mind working and active as I consider several career and life changes.

I am a full time office worker (slave) who has a side project: I'm working on a software add-in to a well known Microsoft product. I'm not a software expert; in fact, I dislike software and often become frustrated with learning new software. I have a friend at work who knows how to program and together we are developing this software add-in. The idea is to make an existing program easier to use. I've been using the program for over eleven years, so my input to this project is in design and function, but not the hardcore programming.

My friend and I meet every Sunday at a cafe in San Francisco, where we live. We work on laptops and discuss all the things we need to do in order to make this a real business. We don't always know what we're doing, but we think we're on the right track, most of the time.

Our Sunday meetings go from 8AM to 11AM. Afterwards, driving back to my apartment, I flip on the radio and listen to your show. Marty, I have to tell you that it's like getting a pep talk from a close, personal coach. It's wonderful! Your show deals with work, but it also acknowledges and celebrates dreams. There is always something, some truth or lesson I can take away from the show and think about and apply to my project and my life.

There are plenty of talk shows out there. Yours is different, and I think it's because you aren't antisepctic in

your approach. You are a warm, caring person, and it shows in how you treat your callers and guests. You challenge them, you get them thinking, but you aren't brash. You create an atmosphere in which people actually want to talk, want to discuss and learn.

By the time I reach my apartment, I park the car and just lean back and listen. You've been helpful and encouraging to me, without ever having talked directly with me. I've picked up the cell phone to call you a couple of times, but decided to just listen at the last second. Someday I'll call, if and when my software product looks like a success.

So thank you Marty for your contribution to radio, to people's lives. You may or may not know it, but you are creating profound change at the most elemental level: within each listener, at their very core, at their individual and personal center.

Best to you, and I'm looking forward to this next Sunday's show.

-Jim Jenkins

PS --> There are several other projects that I am interested in... or I should say several different directions I want to go in. One is being a writer. I've just landed a column for a well known website. They're going to pay me \$125 per column, twice a month. It's a fun thing to do, but I realize that writing is more core to who I am than anything else. It's difficult to create focus, however, when I have a day job, a family, a software add-on product under development, another side business, a passion for surfing, outdoors, culture, etc. Focus is key. I think this would be an interesting topic for your show... how to create focus. The other thing is for me to realize that yes, I can create a software product and then turn around and write like an artist. There is a gap I need to bridge and that is to shake off the stigma that just because you follow one passion in your life doesn't mean you can't take a detour to do another. (This is sort of the 'anti-focus' slant, but, no matter, it's interesting nonetheless). Cheers!

Thank you for continuing to broadcast the holiday specials of the Capitol Steps. I heard their newest show on KALW-FM and they were better than ever, and that is saying a lot. I sent them fan mail and I also want to send you this message thanking you for choosing to broadcast the Capitol Steps. You can hear them again and enjoy them again on KALW on New Year's Eve. I certainly will.

Happy New Year,

Dear Friends:-

I've been a listener/member for several years and appreciate your good programs. This is to suggest two possible changes for your consideration =

1- Omit one of the Fresh Air programs

~~Give Don Kennedy's jazz program~~
~~to a later time Coops - that is for KCSH!~~

2- Find a spot for the excellent program
Common Ground from the Stanley

Foundation (www.stanleyfoundation.org)

(You are probably aware of their offerings.)

(Perhaps it could take the Fresh Air slot??)

(KQED airs this program in the middle of the night, sadly.)

I am now 84 yrs. of age and living on a limited income so my donation is minimal. I wish you all the best for the coming year(s)!

I would like to put in another vote for reinstating Wednesday Tangents.

My partner, Mark McGahee, and I have been listening to and supporting KALW for ten years. We particularly enjoy the live, locally-produced music shows such as Tangents and Blues Power Hour, and we think there should be more of them. We do not listen to Echoes.

I appreciate the work you are doing as Manager and am sure that it keeps you very busy. I hope that you will have time to consider this request before the next Managers Report to the Listeners.

Dear KALW,

I hope it's not too late to send another letter about Alistair Cooke. I was going to send it to you by e-mail but couldn't find a general e-mail address on your newsletter list.

KALW brings me a great deal of enjoyment - especially "Fresh Air" & "My Music". In fact, I think I'll enclose a small contribution with this in addition to my (unfortunately small) annual subscription.

Sincerely,
Vivienne Rowe

Hi Neal-

Just another piece of fan (e)mail for you--I'm sure you're receiving many--after last night's radio program. It was wonderful, a real pleasure to listen to!

T.C. Boyle's event was great, I wish I had been there in person. I thought the editing on the Q&A session was terrific as well; it gave the listener just enough to want to know more. After hearing the program, I picked up my copy of Drop City and dove right in. It had been sitting on my pile of "to read" books for almost a year! Ever since reading Tortilla Curtain, I count myself among his many fans.

So, congratulations on the radio program. I was most impressed by the feeling of community you portrayed among local booksellers as you gave the list of upcoming events for the week, and in your interview with Paul. This doesn't happen enough, (at least not where I come from!) and I felt proud to be part of this bookselling community last night as I listened to the show. Good for you! Good luck with the whole adventure! I'll be tuning in each week....

Best, Amy-lynn

Hi Nicole,

What a great program!

I have a very easily [probably too easily] triggered "poetry b.s. alarm"- So it was such a pleasure to hear these folks- smart,artful ,hip and articulate! what makes great poetry!

but...I wanted to send kudos to one of the poets in particular- but couldn't find any connection on the kalw website...

so there's the yin and yang of my feedback,

Dear Nicole,

I think that you have been doing a great job with KALW, slowly molding it into an even better station every month.

- At last, you realized that just because it's called Echoes doesn't mean that it has to be on twice (ok, I know that it's still on at 11:00 on Tuesdays, but I'm not). Thank you.

- The Carnegie Hall series looks great. Please don't let Echoes ooze back into that slot when this series ends (if it does).

- Now that I have helped crush the Echoes epidemic, can I start a new campaign? You have two fantastic shows, locally produced, really interesting, short, hot. They are hidden in the lazy Sunday afternoon 2:00 hour. Yes, I am singing the praises of Invisible Ink and The Human Chorus. Is there not some weekday evening corner where you could squeeze these gems??? They are truly inventive shows that deserve a bigger audience, including me, who always forgets to catch them even though I hear the promos all week long. Whaddaya say?

I'll come harangue you at SS grove this Sunday even if you don't respond to this e-mail. If you do, then I'll just say hello.

Thanks for the good air,
Danny Yanow

Dear Marty,

I just want to let you know how much I appreciated the opportunity to hear your interview with Alan Dershowitz recently. It is unusual to hear anything other than the prevailing anti-Israel point of view in the Bay Area, and I thank you for having the courage to present another voice, especially one so qualified and distinguished as Dershowitz.

I'm amazed at your continuously lining up wonderful guests, your stamina, and you consistently (and beautifully) expressed provocative right-thinking viewpoints. We're so lucky to have you!! I did renew my lapsed KALW membership because of your show - not that I shouldn't have anyway - but you're the wonderful icing on the cake of KALW and radio and media in general! Thank you, thank you, thank you!!!!
